WE ARE MANUFACTURERS

Pasqual Arnella is a company of visual merchandising made out of recycled paper paste.

Founded in Barcelona in 1892 as a paper mache toys manufacturer, we are now specialized in the production of bust forms, torsos and shop window decoration for the global fashion industry.

Our material, the paperpaste, is the most ecological option to develop any shape, since it's entirely made out of recycled paper, without adhesives or toxic substances.

Over the years we have developed a unique technology which allows us to be highly flexible, being able to produce both medium and large series in a tight timing and a competitive cost.

All our products, designed and manufactured in Barcelona, meet any sustainability standards, embracing the circular economy from design to the packing process.

*We are not a big company, our customers trust us because they know us.
We are a family business, and here, it's all about passion.*
